The Future of Fishing

An extraordinary tasting and learning opportunity on Boston's Fish Pier.

July 26, 2018 | 5:30–8:00 PM
Boston Exchange and Convention Center, Boston Fish Pier

Fishing is fundamental to the New England culture. To sustain this heritage, fishermen, scientists, and even fish consumers will need to adapt.

Manomet, a non-profit science organization working with fishermen to develop new fisheries in the vast Gulf of Maine, which extends from Cape Cod to the Bay of Fundy, will be hosting 150+ supporters, scientists, chefs, and engaged citizens for a special evening of tasting and learning about the future of sustainable fishing. Our special guest for the evening will be Jared Auerbach from Red's Best, a pioneer in marketing the new species now abundant in the Gulf of Maine.

For nearly 50 years, Manomet has been building science-based, cooperative solutions to environmental problems. Manomet's scientists and staff champion better practices in business sustainability, conservation, and science education in the U. S. and internationally. From our world-renowned bird conservation work to our sustainable business solutions, we create successful, scalable strategies that engage people to sustain our world. Our mission—applying science and engaging people—provides practical ways to act where people live and work. Work with us to create a sustainable future.

As a restaurant or industry vendor, you are invited to be a part of Manomet's inaugural "The Future of Fishing" event. This extraordinary tasting and learning event will bring together sustainable-seafood enthusiasts from throughout Greater Boston, offering a superb venue to showcase your products or services. Through your participation, you will demonstrate your commitment to a sustainable future and your willingness to be part of the solution to creating sustainable fisheries in the Gulf of Maine. Join us!

Yes! I'd like to support Manomet's "The Future of Fishing" with an in-kind contribution.

Donation Details

Description of Product or Service to be Donated (e.g. food, beverages, supplies, chef services, etc.):

Estimated Fair Market Value: \$_____ (to determine sponsorship benefits, see next page to learn more about the sponsorship packages)

“We can all play a role in building sustainable fisheries, just by the fish we eat. Learn how to make a difference with us on July 26.”

JOHN HAGAN, President, Manomet
