add others below												
Disturbance-see below												
Census time, start												
, end												
Tide (or water level)												

Human disturbance:	During this census, shorebirds were: A=undisturbed, B=disturbed 1-2 times, C=3-4 times, D=5-10 times, E=>10 times, X= unknown
TIDE (coastal sites):	1=high, 2=near high/rising, 3=near high/falling, 4=half/rising, 5=half/falling, 6=near low/rising, 7=near low/falling, 8=LOW, 9=unknown
WATER LEVEL	(Non tidal sites) N=normal, H=higher than normal, L=lower than normal, X=not observed
ACCURACY:	Please indicate in each block whether your count is: * a true count, ** an extrapolated estimate, or circle a "guestimate"

Please use separate forms for different census localities.
Enjoy your shorebirding! If possible, please send your report to Manomet by the end of the year. Thanks.
